

DIDSBURY PIONEER

VOL. XXIX, No. 5

DIDSBURY, ALBERTA, THURSDAY, FEBRUARY 4, 1932

\$2.00 per Year. 5 cents a copy

Candidates Nominated.

Both Councillors and Trustees Elected by Acclamation.

Only three names were handed in for town councillors at the nomination meeting held Monday morning. W. D. Spence and A. C. Fisher were nominated for re-election, and nomination papers were handed in for J. E. Gooder.

As only three candidates were nominated, the above will be declared elected.

Four candidates were nominated for school trustees to fill two vacancies. Mrs. J. Hugst, Mr. C. S. Mortimer, Dr. J. L. Clarke and Mr. N. S. Clarke were the names presented, the latter being the retiring trustee.

Mr. N. S. Clarke failed to accept his nomination, and later in the day, Mr. C. S. Mortimer withdrew his name. As a result, Mrs. Hugst and Dr. Clarke will be declared elected as trustees.

Hospital Dance.

In spite of the extreme cold on Friday evening the dance given in aid of the Didsbury Hospital was very well attended. Many people from the country however, were prevented from attending. The music was supplied by the Virginians orchestra, of Calgary.

Prizes for costumes were awarded to Miss A. Hogg, Mrs. Panchley, Miss Laura Liesmer, Miss Helen Moon and Mr. W. R. Hartley.

The rouser prizes for the lucky numbers were won by Miss Jessie McCoy and Mr. J. W. Phillipson.

Six picture show tickets for the lucky draw were won by George Smiley and Emerson McInnes.

The hospital staff wishes to thank all those who helped in any way to make the affair a success.

Carstairs-Didsbury Lose in Play-Off

Calgary Altonahs eliminated the Carstairs-Didsbury sextette in the first round of the provincial play-off by a total score of 4-3. The Indians won the first game at Calgary 4-2. The home boys were lost on the first sheet at Victoria arena and did not hit their true stride until the third period after Calgary had a two goals lead. One Altonah goal was at least ten feet offside and happened to be just the deciding counter in the two-game series.

The second game at Carstairs on Saturday night was won 1-0 by the home boys, who outplayed the southern team by a wide margin, but could not beat the opposing goalie more than once. McFriend, the Calgary custodian played a sensational game throughout and was fully responsible for his team winning the series.

For two periods Saturday night, the Carstairs-Didsbury aggregation kept the Altonahs bottled up behind their own blue line and showered shot after shot at Friend, who was having the hottest time of his life. Seven minutes of the first canto had elapsed before Cook eventually scored from a scrimmage before the Calgary net. The game speeded up again when the locals tried for an early counter to tie up the series, but Friend was invincible.

Ken Robinson was outstanding for the home boys. He played a wonderful brand of hockey in both games. Jim Chrystal, of Carstairs teamed up well with Kennie on defence and was a tower of strength to the team. Of the forwards, the Didsbury line of Cook, Johnson and Woodcock were the pick, the Carstairs line of Hall, Boucock and Campbell being woefully weak.

Carstairs-Didsbury: Russell and Durant; Robinson and Chrystal; Cook, Johnson and Woodcock; Hall, Jack Boucock and Campbell.

Bob Gooder refereed in a very capable manner.

LOCAL & GENERAL

Mrs. J. Boorman spent the week-end with her parents at Oids.

Mr. H. O. Tonjum made a business trip to Calgary on Monday.

Mrs. E. G. Ranton who has been visiting at Edmonton, returned home Monday evening.

A R Kendrick shipped six carloads of baled straw to southern Alberta this week.

Mr. E. Platt, accountant at the Royal Bank has been transferred to Stettler.

The Calgary Herald says that Charlie Cook is a "dumbfute." How's that, Charlie?

Mr. J. V. Berscht is attending the annual meeting of the Bible Society which is being held in Calgary.

St. George's Guild, Hermannian are holding a whist drive at Zella school on Friday, February 5th at 8:30 p.m. Admission 25 cents. Everybody welcome.

Auction sale in Didsbury. List your supplies now—horses, cattle, pigs and farm machinery for the auction sale which I will hold shortly.—J. W. Phillipson.

"The Darling Romance" at the Opera House Monday and Thursday next. Captivating adventure, spice, thrills and laughter that will keep you happy for days. Features Evelyn Laye and John Bala. Chapter 3, "Phantom of the West."

Lost: On January 2nd, somewhere between Ed. Liesmer's, east and J. Luff's, west of Didsbury, a cloth robe, brown and green, partly acid-clean near one corner. Finder write to Harvey Burgess, Bergen, and receive reward.

"At the movies tonight, (Thursday) "Thos Three French Girls." You'll like these three love-making, laugh making Parisian maidens. Ed Dorsey and Reginald Denny head the cast. Chapter 2 of the new serial, "Phantom of the West."

The Women's Missionary Society of Zion Evangelical Church will observe their annual Day of Prayer at the morning service on Sunday, February 7th at 10:30 o'clock. There will be a special program. The subject of the sermon will be "Limiting God." In the evening at 7:30, Rev. E. S. Spence will preach.

The girls of the C.G.I.T. were much pleased with the success that attended their "Geographical tea" given last Saturday afternoon at the home of Mrs. Boorman. The tea-op reading by Madame Yhtorid proved very popular, and no doubt her services will be called on for future occasions. The girls wish to thank all those who helped make the tea a success.

Despite the cold weather there was a large attendance at the home of Mrs. J. H. Louvie Wednesday evening last when the Anglican Social Club held its first social. A very enjoyable evening was spent in dancing and whist, the prize winners being: Ladies 1st, Miss Betty Barrett; Ladies 2nd, Miss Terry; Gents 1st, Mr. Pete Booker; Gents 2nd, Mr. Jack Booker.

Mr. and Mrs. Ward Keith and Mr. Keith, Sr., Chief Kercher, C. E. Reiber, Milt. Ford, Ross Ford, J. V. Berscht, Russell Berscht, Al. Russell, Gen. McKernan-Grieve, Mr. and Mrs. J. Catness, Mr. and Mrs. J. H. Fleury, Miss R. Clements, and Mr. J. W. Hatten were among the fans who braved the cold to see the hockey game at Carstairs on Saturday night.

Mr. B. Goshing received word of the death of Mrs. Goshing's father, Mr. Ed Phillips, who died at Youngstown on Monday morning. Mr. Phillips was an old-timer in the Youngstown district, where he conducted a hardware and implement business. Mr. Goshing left on Monday to attend the funeral. Mrs. Goshing has been in Youngstown for several weeks.

Open Bonspiel Starts Wednesday

The Didsbury bonspiel will open on Wednesday, and while all the entries are not yet in, the success of the 'spiel is assured.

Eleven rinks from the town are entered and three rinks from the country. Several rinks from outside points are expected.

There will be three committees: the distributors, merchants, and consolation.

Curiers Will Attend Church.

The members of both the Didsbury Curling Club and the Ladies Curling Club will attend the church service at Knox United Church on Sunday evening, February 7th. All members are requested to be present.

Rev. A. J. Mitchell will conduct the service and his sermon-subject will be: "The Appeal of Curling."

Mr. Douglas Cressman, of Dolsa came to Didsbury on Tuesday to visit his mother, who is on the sick list.

Mr. P. Miquelon has charge of the C.P.R. depot during Mr. J. A. McElroy's absence, and is being assisted by Mr. Boyd Miller, of Oids.

Messrs. W. Pageford, Peter Johnston and Aug. Fisher are attending the convention of school trustees being held in Calgary this week.

Mr. and Mrs. J. A. McGhee left for Winnipeg on Monday. Mr. McGhee is representing the Alberta Grand Lodge of Royal Arch Masons at the Manitoba convention.

The fire brigade were called out Sunday afternoon to a small fire which broke out in W. H. B. Sharp's garage and office buildings behind his residence. The fire however had been extinguished before the firemen arrived on the scene.

Many of the country members of the Canadian Legion were unable to attend the special social evening given on Saturday. However, those present had a very enjoyable time and later in the evening they entertained the hockey boys on their return from playing at Carstairs.

Mr. K. N. Robinson, of the Royal Bank has been transferred to Cardston and left for his new position on Tuesday. We are sorry to lose Ken, who has made many friends here, and he will be much missed by the hockey and baseball boys. Before leaving, he was presented with a purse by a large number of friends.

Re Free Pant Sale

Dear Sir,

Our January Employee's Free Pant Sale has been a wonderful success. Our business for the month shows a splendid increase for a month which is ordinarily regarded as a quiet month.

We have had many requests to carry on this sale for the month of FEBRUARY, and as there are considerable quantities of some of the very best materials still in stock, we have decided to continue the Free Pant Sale during the month of FEBRUARY.

Yours very truly,
W. R. JOHNSTON & Co.

Save \$7.50 to \$10.00 on Your New Suit
During FEBRUARY.

WORLD HAPPENINGS
BRIEFLY TOLD

Flood waters spreading over northern Mississippi and portions of Arkansas and Louisiana, December 18, sent scores of families racing to high ground.

Continued improvement was reported Sunday, December 20, in the condition of Pola Negri, film actress, following her operation and blood transfusion.

The staff of the United States Consulate in Winnipeg, is being increased by the appointment of Stanley R. Lawson, now at Genoa, Italy, as vice-consul, consular officials were advised recently.

Sentences of six months and one year in prison were inflicted on Puthottandras Tundun, a leader in the Indian National Congress, at Allahabad, India, on charges of violating the ordinance against the "no rent" campaign.

The captain of the liner "Tusconia," which arrived in Glasgow, Scotland, from New York, reported an elderly woman was fatally injured and 35 other passengers suffered minor injuries as the result of heavy seas which tossed the ship in mid-Atlantic.

Thirty firemen were injured by falling masonry or overcome by smoke when they swept the ancient "Atlas Schloss" palace in Stuttgart, Germany, recently. Most of the art, except a collection of textiles, were saved.

Rene Pilon, Romeo Ridenand, each 20 years; Emile Groleau, Adrien Dechasseau, each 14 years; these were the sentences meted out by Judge Tremblay, in the court of session at Montreal, recently, to four young men who were convicted of armed robbery.

Premier George S. Henry returned to Toronto on Sunday, December 20, from a three weeks' tour of Western Canada and denied reports that he contemplated resigning the premiership to accept the vacant post of Lieutenant-Governor of Ontario.

Canadian car loadings week ended December 12, totalled 45,377, a decrease of 4,667 from preceding week and 4,896 less than like period 1930.

All departments of Oakland Motor Car Company plant at Pontiac, Mich., are on full time basis with some departments working at night as well.

U.S. Treasury called for repayment in New York federal reserve district of \$14,220,800 on December 21 and similar amounts on December 22 and 23 making total of 132,962,400, representing 37 per cent. of amounts remaining on deposit for account of treasury notes dated December 15, 1931.

Studebaker Tractor, year ended September 30, 1931, net loss \$634,557, after depreciation, inventor adjustment, etc., against net income \$670,376, equal to \$240, Studebaker expending employment with 9,900 men, now employed nine hours a day at South Bend.

Twin, a son and a daughter, were born to Mr. and Mrs. F. H. Simpson of Sioux City, Neb., early Sunday morning, December 20, 1931. The son was born at the family home shortly after midnight and the mother and the babe were hurried in an ambulance to a Sioux City hospital. An hour later the daughter was born. So one babe is a native of Nebraska, and the other of Sioux City, Iowa.

Thirty-six hundred important bank positions in the United States are held by women.

"I would like to buy you a dress like that, Agatha - and a figure like it as well." - The Musketeer, Vienna

Canadian Bees For Orient

Alberta Company Recently Shipped 1,200 Colonies To China

Something new in Canada's export trade with the Orient, and likely to have far-reaching effect, was inaugurated when Mr. C. George Reidel, of Taber, Alberta, shipped 1,200 colonies of screened bees and their accompanying queens from the Province of Alberta to China. The Canadian Pacific Railway, in charge of the unique shipment, arranged for quick transit to Vancouver, where the bees were loaded immediately into special refrigeration compartments on the "Empress of Russia," which sailed on November 21. Mr. Reidel's company is one of the largest producers of first quality table honey in the British Empire.

It has been discovered that the variety of bee that makes honey in Europe and America, "Apis mellifica," produces almost twice as much honey as the native Asiatic bee that has made honey for the Chinese since the time of Confucius. In China honey is not so much a food as a medicine. It is sold in all Chinese apothecary shops for medicine purposes.

Mr. Reidel has already made two shipments of bees to China from his California apiaries, and is now taking leave of absence from his firm for five years. He accompanied the present shipment of 1,200 three-frame nuclei from Alberta, and will demonstrate modern Canadian and American methods of bee culture in the Orient. Each of the 1,200 colonies will have its pure-bred Italian queen.

"By means of this experiment, it is expected," says Mr. Reidel, "that the lives of the industrious little workers in the hives will be spared to continue the work of conserving the food of the flowers for the benefit of humanity."

Auto Bungalow Camp For National Park

May Be Established Under License At Prince Albert

The National Parks Department will shortly advertise for offers for an exclusive license to establish an auto bungalow camp at Prince Albert National Park. It was announced by the superintendent, J. A. Wood. The license offered is for 21 years, renewable for a further 21 years. Exclusive rights to operate a bungalow camp are given for only five years.

Plans in the parks office here cover 25,000 acres of landings by the first year. These are only in the nature of a suggestion, Mr. Wood said. In any event, plans and specifications will have to be fully approved by the parks department. Three proposed sites are under consideration.

Has Had 285 Rulers

Governor Job Is Not a Steady One In Chihuahua

Governors come and governors go in the Mexican state of Chihuahua. Colonel Roberto Fierro, recently appointed governor of the state, is the 285th man to hold the post since Chihuahua was organized in 1824.

Chihuahua has had an average of two and a half governors a year.

No governor in the last twenty years has served out his elective term of two years.

Enrique Creel, who left office in 1910, was the last governor to serve out a term.

Chihuahua has had seven governors in the last three years.

The shortest term ever held by a governor was one hour.

Better Than Imported Woods

Manitoba To Use Jackpine For Power Line Poles

The forestry committee of the Industrial Development Board of Manitoba report that thousands of power line poles in Manitoba, made of imported wood, may soon be replaced by poles of native Manitoba jackpine. The wearing qualities of the jackpine, when treated for the purpose, are said to equal those of imported poles. This committee also reports that cut-over lands in Manitoba are showing exceptionally rapid new growth.

An automobile is not improved by crossing it with a locomotive.

In Texas, a plant is being built to manufacture carrot syrup.

Are Building
Giant Liner

New Queen Of Seas Under Construction For Cunard Company

Almost a quarter of a million people in Great Britain will have had employment either directly or indirectly in the construction of the new giant Cunard liner which is being built by John Brown & Co., at their Clydebank yards.

There is hardly an industry in the whole of Great Britain that has not been affected in some way or other by the construction of this mighty vessel. Everywhere factories have been working night and day since the order for this liner was first given to John Brown & Co., on December 1st, 1930, by Sir Percy Bates, Bart., G.B.E., chairman of the Cunard Line.

In addition to the great forgings, turbo generators, miles and miles of tubing and such like accessories which will be required, there will be thousands of pieces of cutlery and plate, crockery and other equipment required for feeding the large armies of passengers on her trans-Atlantic crossings.

When the huge rudder, which in weight equals about twenty-five street cars, was being transported from Darlington to Clydebank, the railway company, over whose lines it was being carried, were forced to suspend all other trains until the one carrying the rudder had completed its journey, as the mammoth piece of metal required two specially-constructed flat cars running side by side to carry it. A veritable forest of lumber was required to furnish the wooden props for varying sizes which support the vessel as she lies in her stocks. This new Queen of the Seas will be turned over to the Cunard Line sometime in 1933. Her launching is expected to take place early next year.

St. Godard To Enter
Olympic Dog Races

Famous Northern Musher Will Drive For Philadelphia Enthusiast

Leo St. Godard of The Pas, Manitoba, brother of Emile St. Godard, famed northern musher, left for Philadelphia, Pa., where he will start training in preparation for the Olympic and other southern races.

Leo will this year drive a team of racing dogs for J. T. McIlhenney, dog lover and race fancier of Philadelphia.

With this pack Leo plans to take part in the Olympic dog races at Lake Placid, New York, which will be held during the week of Feb. 4 to 13 next.

During January Leo will train McIlhenney's dogs either at Pochontas or Daie Placid.

He will return to The Pas, Manitoba, next spring.

Asked Dive For Prison

Three youths, Harvey King, Anthony Orth and Lawrence Cambridge, Norfolk, Neb., said they had one request before they were taken to prison to serve terms of three years for stealing cigarettes: they wanted a pair of dice to take to the "big house."

Drop In Liquor Revenue

Revenue of the Quebec liquor commission dropped to the extent of \$4,528,335 last fiscal year, according to the tenth annual report of the commission, tabled in the provincial legislature. The net revenue to the government amounted to \$9,105,993.

"Hello, is that you, my little sugar plum?"

"Yes, darling, but who are you?" - Journal Amusant, Paris

Have To Pass Inspection

Even Christmas Trees Are Not Immune From Law

Even our Christmas trees are not immune from government inspection and certification. U.S. Department of Agriculture reports that Christmas trees and greens may not always be as harmless as they seem. If shipped from an area heavily infested with some dangerous insect pest into a non-infested area, they constitute a distinct menace to vegetation. Therefore, a federal quarantine bans shipment of evergreens from those parts of New England which are heavily infested with gipsy moth, a serious pest of shade trees. Plant quarantine inspectors of the Department of Agriculture carefully scrutinize all shipments from the lightly infested regions.

Stockyards Are Busy

Saskatchewan Handling Large Percentage Of Shipments For Market

Dominion Government returns received at Saskatoon covering the marketing of livestock in the province of Saskatchewan reveal that 75 per cent. of the livestock marketed in this province during the week ending December 19 passed through the Saskatoon stockyard. This is taken by livestock officials to indicate the rapid development of the cattle and hog industry in the northern areas of the province, and follows closely in line with the trend of marketing percentages for the past months.

Radium is being used to detect flaws in steel plants used in ship building.

Circuses were first presented under canvas in 1826.

British Firms Interested

May Invest Capital In U.S. Resources Of Saskatchewan

Possible development of Saskatchewan's coal reserves by British capital is seen in information given out by the Bureau of Publications at Regina.

According to the Bureau's report, two British manufacturing firms have been interested by the Department of Railways, Labor and Industries, from the standpoint of the manufacture of sewer pipe and electrical porcelain.

Both companies have shown some interest in the possible erection of branch plants, and the department anticipates that with the return of normal conditions, the investigations will be continued with the object of ultimately erecting plants.

The only tool an Eskimo requires to construct an igloo is a knife.

J. E. GIBBS, Editor & Manager

Cow Testing Assn. Meeting.

The annual meeting of the Didsbury Cow Testing Association was held on Wednesday last, and the attendance and interest taken show that the dairy industry is a very live issue in this district.

Mr. Lyndon, of the Dept. of Agriculture, outlined an economic survey of the dairy industry in Alberta. He stated that he intends getting a detailed statement from fifteen farmers of the district concerning actual conditions. He stressed the importance of cow-testing.

Mr. Jas. Murray, of the Olds School of Agriculture, spoke on the necessity of cultivating pastures to get the best results. He pointed out that with the small rainfall here there has been too much attention given to the growing of timothy. He recommended the growing of western rye, which is especially adapted to the drier climates. He also recommended brome grass as being excellent for pasture, and will withstand drought, and on land that is not too heavy will give a better return than any other grass. Mr. Murray stated that certified brome seed is absolutely free from quack grass. For the growing of hay, he recommended alfalfa, which has been proved can be successfully grown here; that it should be sown about the middle of June, about 10 lbs. to the acre, and that it can be grown from the Peace River to the international boundary. Mr. Murray extended an invitation to all organized bodies to visit the farm at Olds and see the grasses growing under actual conditions.

Dr. Price, of Calgary, spoke on cow-testing for tuberculosis. He criticized the government for not employing the local veterinarians for this work.

Mr. Roy Trimble, dominion govt. dairy promoter, who had charge of the work in this district, outlined his year's work. He stated that every time he visited the district, he drove 124 miles, and that he visited each herd every two months. The meeting agreed to pay him \$2.00 per member for this work.

The speakers were accorded a hearty vote of thanks.

The following officers were elected for the ensuing year: president, Mr. C. W. Gibbs, and secretary, Mr. H. A. Brennan.

Weekly Sermonette.

"Some persons act as if they believe it beneath their dignity to make their greetings cheerful and brighten them with a smile."

Weekly Joke.

"I met our new minister on my way to Sunday school, mamma," said the small son, "and he asked me if I ever played marbles on Sundays."

"If'n' and what did you say to that?" asked his father.

"I said, 'Get thee behind me, Satan,' and walked right off and left him."

LOCAL & GENERAL

Evensong and sermon at St. Cyprian's Anglican Church on Sunday at 3 p.m.

J. Scrutton is announcing another good line in photographs. Three photos 7x5 1/2, in oil colors for \$6.00

Arrival of new dresses at Mrs. Wilson's Style Shop, next door to Pioneer Office.

The Knox United Church anniversary service will be held on Sunday, February 14th, when the Rev. T. T. Faichney, B.D., of Calgary will be the guest-preacher.

The Frances Willard memorial meeting of the W.C.T.U. will be held at the home of Mrs. H. M. Reiber on Thursday, February 11th at 3 p.m. The program will be in charge of Mrs. Berscht. Members and friends are invited to be present.

Henry Wright, signwriter, etc., of Didsbury, wishes to thank all the ladies and gentlemen of Didsbury and district who so generously subscribed to his late draw for a glass checkerboard and a bunch of Australian water birds. Mr. E. L. St. Clair with No 15 won the birds, and Mr. A. G. Studer with No 38 won the checkerboard. To the unsuccessful subscribers Wright says "keep smiling," as he intends to put up a bigger, better checkerboard and a bunch of butterflies for a draw at 25 cents each subscriber.

Curling Notes.

Both the Didsbury rinks that went to the Red Deer hospital last week got into the prize. Julien's rink won 2nd prize in the Birks competition, and McCloy's rink took 2nd prize in the grand challenge. The personnel of the rinks: Julien, Bellamy, McFarlane and Catliness; McCloy, Edwards, Wyman and W. Morton.

At the Carstairs hospital the Dr. Clarke rink failed to meet with success, being put out of the running on the second day by the other Didsbury rink competing. The Dr. Liesemer rink however got into the jewelry in two events, bringing home a second and a fourth prize. The personnel of the rinks were: Dr. Clarke, W. G. Liesemer, J. V. Berscht and A. McNaughton; Dr. Liesemer, F. Kaufman, H. Lee and J. Finley

Here and There

Grain shipments through the port of Halifax were nearly 400,000 bushels in 1931, but in 1932 the figure for the two years are: 1930, 731,955 bushels; 1931, 1,129,787 bushels.

Gold production from Northern Ontario mines in 1931 is estimated to have a value of \$1,000,000. Since mining began 25 years ago, three mines have produced a value of \$2,000,000 worth of gold.

The Mountain women to Mahanoot those Gags. University of Alberta give educational courses by radio four times a week, enabling those unable to attend in person to have the university taken to them.

Total value of all field crops produced in Canada in 1931 is estimated at \$451,251,000, of which wheat accounts for \$108,786,000. Hay and clover is the next most valuable crop, being put at \$11,194,600.

A solid block of blue granite hewn from the side of Mt. Sir Donald, in the Canadian Rockies, has been shipped to New Haven, Connecticut, to be incorporated in the new Stratford Memorial Building now being built at Yale University.

The five great branches of Primary Industry in Canada, as measured by the latest available statistics of value of production were agriculture, forestry, mining, electric power and fisheries, with the first having a production greater than all the four others combined.

On for the E. W. Beatty mid-winter golf championship trophy to be fought for over the links of the Royal Colwood Golf Course, February 27-28, leading amateurs from Seattle have notified their intention to compete. Last year's cup winners from Victoria will also take off and there will be seven contestants from Vancouver. The Pacific Provinces are just east of Winnipeg.

Some Things to Remember About Milk!

Pride Appeal and Pocketbook Appeal

The Chevrolet Type of economical transportation has them both

NAME all the qualities of a motor car that go to inspire its owner with lasting pride—and you name the very things that make the new Chevrolet Six the Great Canadian Value.

The fine modern Chevrolet Six is listed as low as \$635 (at factory, Oshawa, taxes extra). Match this low price—actually one of the lowest motor car prices in the world—with Chevrolet's desirable new features: A 20 per cent. increase in power! Smoother, more economical six-cylinder engine with down-draft carburetor! Silent Synco-Mesh gear-shifting! Simplified Free Wheeling!

We have a car waiting for you to try.

PRODUCED IN CANADA

LOW PRICES	
Standard Roadster . . . \$635	Standard Sedan . . . \$845
Sport Roadster . . . 695	Special Coupe . . . 860
Standard Coach . . . 720	(Humble Seat) . . . 860
Business Coupe . . . 725	Special 5-Passenger Coupe . . . 825
Standard 5-Window Coupe . . . 745	Special Convertible Cabriolet . . . 850
Special Coach . . . 775	Special Sedan . . . 870
Special All-Weather Sedan . . . 845	

All prices at factory, Oshawa—Taxes extra.
Ask about the G.M.A.C. General Motors' own deferred payment plan. The broad, inclusive General Motors Owner Service Policy assures lasting satisfaction.

Major John W. Sifton, one of the proprietors of the Manitoba Free Press, Winnipeg, seated at his writing desk in his private residence at Toronto recently pulled a lever which, through the medium of Canadian Pacific Telegraphs transmission wires, set in motion the new ten unit speed press just erected in the Free Press office at cost of \$200,000. The new press has a rated maximum capacity of more than 100,000 forty-page papers per hour.

Twelve hundred colonies of screened bees and their accompanying queens from the Province of Alberta to China was the unique feature of the Canadian export trade to the Orient and of the shipments abroad the Empress of Russia recently. The Empress of Russia was packed in the "Bees" under the time of Confucius. (129)

Mountain View Notes

Don't forget the dance at the Community Hall tomorrow evening, (Friday). Olds orchestra.

The meeting of the Girls Club will be held on Saturday at 2 p.m. at the home of Miss Ellen St. Clair.

Mr. and Mrs. B. A. Milnesen were recent visitors at the home of Mr. and Mrs. Rae Armstrong, of Olds.

The gift of library books and pictures to Mona School by a Calgary chapter of the I.O.D.E., through their teacher, arrived on Saturday. The two pictures are: "The Arch of Triumph" and "The Landing of Canadian Troops at St. Nazaire."

The annual meeting of the local branch of the C.F.A. took place at Community Hall, Monday last. The officers for the ensuing year were elected as follows: president, Mr. E. Blain; secretary, Mr. E. Cullen. All residents as well as the members are anxiously waiting to see if an advantageous decision is reached on the \$1.00 per acre for the hauled crops.

Mr. G. Doll who is attending the trustees convention in Calgary, will give a report to the ratepayers of Mona S.D. on Saturday, February 13th. It is very interesting to find our new Canadians so enthusiastic over the educational affairs of the province. This gentleman was for some time with the natural resources branch of the C.D.R. prior to turning, and was among those who suffered dire hardships during the Great War.

Many of the old handicrafts are once again coming into prominence, for example, that of quilt-making. It is quite interesting for one to be able to be taught such, whose career heretofore has been along business lines. By getting together with one's neighbors who are interested in such work, one is able to store up an abundant knowledge of useful handicrafts, as well as becoming acquainted with, and feeling the true spirit of comradeship. These quilting bees are worth-while social functions in any district.

If you have anything you don't need, we can sell it for you. Bring in your surplus goods. Someone is continually calling for the things you've got.—W. H. Chamberlain's Secondhand Store.

BERYL AND BANANAS

To which should be added another "B"—Bermuda. Bermuda is a strange place to live, a mixture of beryl and banana, which, as the dictionary puts it, "when transparent flashes blue and green, with the brilliant yellow fruit that, so surprisingly, when you find it growing, is up-side down and green."

It is strange that then it is just as strange to leave the home and live of Canada and less than 60 hours later to find oneself in the gentle, sub-tropic warmth of Bermuda. Bermuda is a metaphor, expresses the transparent beauty of the sea around Bermuda; bananas are the last remnant of the many delicious fruits with which the island abounds. It is a fascinating combination of ancient and modern that one reaches by 29,621 ton Canadian Pacific Dominion liners sailing from New York every Wednesday and Saturday. No motors are allowed in the land—yet there is an ultra-modern diesel-electric railway. A "cow's breakfast" hat, a sketch of a ship, and nondescript pants held up by a one-size-fits-all rubber laughing darters for costume, are the main items from where the Duchess of York and the Duke of Atholl deck is the up-to-date Hamilton Hotel, Bermuda's largest hostelry. Only 200 passengers, separate ship and Princess Hotel, and a few of launch trips reach many other passengers in a guest house. The Hamilton Hotel is in delectable contrast with the horse-drawn Bermuda winter playground, more so since the

inauguration last year of steamship service by trans-Atlantic liners.
(A) Stopping from ship to street.
(B) "Have a banana?" A bright-hued chamelion was a bright, one and decided when the young lady approached the tree—after which it was just like picking an apple in the orchard back home.
(C) Ancient and modern. The palatial Hamilton Hotel is in delectable contrast with the horse-drawn

ENO'S FRUIT SALT

The Safest, Surest Way To Health

The daily dash of ENO in a glass of water every morning is the safest, surest way to inner cleanliness. And to be inwardly clean is to be healthy. ENO'S "Fruit Salt" is a delicious health beverage that tones and sweetens the entire system. For constipation, acid stomach, fatigue and biliousness it is without equal. But remember, only ENO can give ENO results.

Why The World Is Sick

Reviewing all that the world has passed through in the years 1914 to 1921, considering the deplorable state of affairs existing in the world today, and at the beginning of a new year, looking into the immediate future, one would expect all people of all races, nationalities, languages and creeds, who possess an atom of intelligence and a modicum of commonsense to solemnly vow "Never again!"

During the frightful years of human anguish and suffering of the world war people were sustained, even uplifted, by the hope, the oft-expressed declaration, that it was war to end all war; that, when the strife and agony was ended, a new and brighter day would dawn for this old world, the commencement of an era of happiness, progress and prosperity unparalleled in the history of mankind. Buoyed up with these hopes, inspired by this bright vision, people labored and sacrificed and suffered contented that their children and children's children through generations to come would reap the benefit.

But disillusionment has come. The nations of the world were not purified in the fires of war; the selfishness and greed of man were not consumed. The huge debts which the war imposed on each nation are crushing the people, but instead of a willingness to mutually and amicably adjust these burdens, or, as there should be, a keen anxiety to do so, with the strong helping the weak, the nations with war-like ferocity seem bent on making the "other fellow" pay to the last farthing. Like Shylock of old, they demand their pound of flesh, caring not that thereby all are headed toward the abyss of destruction.

And individuals, like nations, display the same selfishness, and even greater greed. For the losses they sustained during the war, they seem determined to recoup themselves. Full and exorbitant payment they are demanding for the allegedly patriotic sacrifices they made during the war period. They apparently care not that such payment to them means ruin to others, and they thoughtlessly forget that with the ruin of these others loss must inevitably fall upon themselves.

And so, nearly a decade and a half after the joyful announcement of the armistice and the coming of the long hoped for peace, there is as much suffering throughout the world as during the war years, possibly less in some countries but much more in others. The same great wealth of natural resources, provided by a benign Providence, exists; the needs and desires of man are as great as ever; the means are at hand to utilize the one to meet the requirements of the other. But selfish, selfish man says "No." He refuses to consent to anything to help his fellow man, but selfishly thinks only of self and demands that all others shall help him while he holds back the aid he might extend.

Thus each nation builds economic barriers against all other nations; each is at war with all others in an attempt to out-manoeuvre them, to make progress while all others decline. And so all suffer, not one is making progress, all are on the decline. Again, what is true of nations, is true of individuals. One industry makes demands for itself alone regardless of the effect on other industries, forgetting that if these others suffer, it, too, must suffer if they perish, it also must die.

The world war to end all war failed in its object. War rages today between the nations as never before. It is a world war, more embracing in fact than the colossal struggle of 1914-1918. It is being fought by different methods, that is all. It is piling up national debts higher than ever; it is steadily, even rapidly, increasing the burdens of taxation; it is destroying trade and commerce; it is making men, women and children naked, and cold and hungry. The Great War did provide employment for all, the present economic world war has thrown millions out of employment, and the number steadily increases. It is undermining the health and the morale of countless thousands of people.

The picture is a dark, a gloomy one. It is, however, futile to delude ourselves. It is idle to cry peace, peace, when there is no peace. The only salvation for the world is a return to sanity. The world is just what the people of the world make it. If they insist on fighting each other whether in a physical or economic sense, why fight they will. But in seeking and striving to destroy they must assuredly cannot build up and prosper. The world must turn from its present ways before it can recover from its sickness. It is not a shortage of gold, nor over-production, nor even present ineffectualities that is the trouble. It is the people and their prevailing outlook on life, their mischievous and narrow nationalistic selfishness that is the root cause of the world's sickness and depression.

Sorry To See Night Coming She Could Not Sleep

MILBURN'S HEART'S NERVE PILLS

Mrs. K. McElroy, Kirkfield, Ont., writes:—"I was very nervous and run down, was short of breath, and had smothering feelings, and was sorry to see night coming as I could not lie down or go to sleep."

She was advised to use Milburn's Heart and Nerve Pills. "I took seven boxes and am now completely relieved, can sleep like all night, and have gained in weight."

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Idea Is Not New

Psychologist Believes Murder Preventible By Detecting Criminal Type Early

Murders may be prevented in the near future by the recognition and treatment of the types likely to commit major crimes.

This is the belief of Miss Alice Raven, a leading London psychologist, who has made an exhaustive study of the most famous murder cases of present years.

"In all cases of murder I have investigated," she told a newspaper representative, "I have found a definite psychological similarity in the murderers."

"Murderers are almost invariably introverts with a sense of hostility towards the world, probably due to an inferiority complex, and they have frequently no power of self-expression."

"Their creative faculties are bottled up within them, and this repression leads to a desire for violence."

"More research is needed on this point, but I am inclined to think that the murderer is a man who has a memory of cruelty in childhood to work off."

"My studies of murder cases and criminal mentality show that murder is only committed under certain definite conditions, and I am convinced that trained psychologists will ultimately be able to recognize the type, even in childhood, likely to commit major crimes, and the social services will take them in hand."

Strangled With Asthma is the only expression that seems to convey what is endured from an attack of this trouble. The relief from Dr. J. D. Kellogg's Asthma Remedy is beyond measure. Where all was suffering there comes comfort and rest. Breathing becomes normal and the bronchial tubes completely cleared. This unequalled remedy is worth many times its price to all who use it.

Canadian Ports Cheaper

Cattle Exporter Seeks Shipment of American Mules From Quebec

The possibility that Canadian ports will be used in future in preference to American ports as a shipping centre for cattle and horse shipments to Europe was foreseen at Quebec by William E. Rowe, leading United States cattle exporter, who was supervising the loading of twenty-eight sample head of American mules consigned to the Italian Government for army purposes, chiefly in connection with artillery.

The animals were sent across on the freighter "Hannover," which vessel also carried a capacity cargo of 226,000 bushels of grain for Hamburg. When asked why he had chosen Quebec as the shipping port, Mr. Rowe said he found that even with the longer rail haul to a Canadian port transportation costs were reduced considerably, resulting from a much lower cost of Canadian feed.

The exporter, who crossed to Europe in charge of the shipment, expressed the opinion that the movement of these animals through Canadian ports would increase in the future, meaning that a trade which previously had gone entirely through United States harbors now will be deflected to the ports of Quebec and Montreal during summer months and St. John, N.B., in the winter season.

It Will Relieve a Cold. Colds are the commonest ailments of man and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation, soothe and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will usually stop the cough because it allays the irritation in the throat. Try it and you'll see it.

Orders Entire Honey Crop

A large shipment of honey has been made by J. Mackison, of Hayfield, Manitoba, to eastern Canada. After demonstrating the quality of his honey by using a consistent winner at the Toronto Royal Fair, Mr. Mackison obtained an order from one of the Toronto departmental stores, and the company has now placed an order for Mr. Mackison's entire crop.

Since 1909 A.D. Iceland has exceeded all other regions in the output of lava from its volcanoes.

Discoveries Confirm Report

Geological Mapping of Manitoba Area Indicated Gold Deposits

The discoveries of gold made recently in the Island Lake area of northern Manitoba would appear to confirm the views expressed by Dr. F. F. Wright in the summary report issued by the geological survey, Department of Mines, Ottawa, following the geological mapping of that area in 1927, according to a brief statement issued from the Department of Mines, Ottawa. The statement continues:

"Commenting on the mineral possibilities of the district, Dr. Wright, who paid a further visit to the area during the past summer, states that the geology indicates areas of rock similar to those wherein commercial mineral deposits have been discovered elsewhere within the Canadian shield. Consequently, it is pointed out, the area is one that should be prospected carefully. Favorable rock conditions extend over a large belt and a great deal of intensive, systematic prospecting will be necessary before the mineral possibilities can be evaluated."

Manitoba Not Changing Auto License Tax But Owners In Saskatchewan Pay Five Dollars More

Licenses for motor cars in Manitoba will cost no more for 1932 than this year, and the registration fee will continue to be the same, inquiries at the legislative buildings disclosed.

No change is contemplated in Manitoba. In Saskatchewan citizens will be called upon to pay \$5 more for licenses than do owners of motor cars in Manitoba.

Licenses in Manitoba range from \$3 to \$5 in cost, depending on the length of the wheelbase of the car. Registration of motor vehicles other than trucks and trailers cost \$9 for cars not exceeding 100 inches in the length of the wheelbase, and \$2.50 for every additional five inches in the wheelbase.

Keep Douglas' Egyptian Liniment handy. A sure, speedy remedy for burns, sprains, felons, blood poisoning, soft corns, warts, scald feet. Invaluable for inflammation and muscular rheumatism.

Receive Repeat Orders

Trial shipments of British Columbia tomatoes from Kamloops to Hong Kong, made with the co-operation of the provincial authorities, have resulted in repeat orders for the product, it is announced by Hon. William Atkinson, Minister of Agriculture. The initial shipment sold readily and at satisfactory prices.

Baby's Colds Checked without "Dosing"

Applied externally, Vicks relieves without upsetting delicate stomachs.

VICKS VAPORUB

FOR COLDS OF ALL THE FAMILY

Won War Against Speeders

But Duke of Marlborough Had To Use Drastic Method

The Duke of Marlborough has won his war against the speed-hogs on his estate.

Some weeks ago, personally inconvenienced by the speeding of motorists through the private roads of his estates at Blenheim Park, he adopted a novel, if somewhat drastic method of preventing fast driving.

He had two "bumps" built into the roadway near Blenheim Palace, with the result that motorists taking the corner at speed received a timely reminder of their sins.

Speaking recently, the Duke of Marlborough, who had previously expressed his determination to stamp out speeding through his estate, which is noted for its beauty spots, stated that his methods had resulted in the return of normal motorists.

Persian Balm quickly relieves chapping, windburn and all roughness caused by weather conditions. Keeps the complexion clear and lovely. Completely absorbed by gentle rubbing. Never leaves undesirable stickiness. Stimulates the skin. Makes it soft, smooth and flawless. Preserves and enhances natural beauty. Soothes, refreshes and invigorates. Makes skin soft and flawlessly white. Imparts that subtle charm so essential to true elegance.

Lumber Trade Improving

Shipments From British Columbia Showing Big Increase

The lumber trade of British Columbia is picking up noticeably. For the first nine months of the current year business with Australia has been greater than at any time since 1927, with exports running to 33,400,290 feet compared with 29,948,278 feet for the whole of the year 1929. Shipments to China have also been quite large, at 40,290,791 feet for the nine months against 46,924,743 feet for the whole of 1929. Japan's purchases to date amount to 33,600,000 feet.

Development Of Canada's Resources Since War Shows Expansion Not Dreamed Of

Available figures of the decennial census of Canada (1931) leave no room for doubt that the population now exceeds 10,000,000. The census of 1921 showed a total of 8,788,483. From 1906 to 1915 inclusive more than 2,500,000 immigrants entered the country. Great Britain and the United States were the chief sources. Since the World War the tide has fallen off. Modern Canada may be said to date from 1867, when the Dominion was formed by the union of Nova Scotia, New Brunswick, Quebec (Lower Canada) and Ontario (Upper Canada). Two years later the Northwest Territories were purchased from the Hudson's Bay Company, and in 1870 Manitoba was organized out of the new lands. It was not until 1871 that British Columbia, and 1873 Prince Edward Island, joined the Dominion. The population in 1871 was 3,435,761. In 1880 the islands and districts within the Arctic Circle came under the jurisdiction of the Dominion, Newfoundland and the Labrador Coast still remain outside. Canadian must be thought of as more than 80 per cent. British and French in origin. The area of the Dominion is 3,681,723 square miles, 3 per cent. greater than that of the United States and Alaska, and only 2 per cent. smaller than the area of Europe.

Since the World War the development of Canada's resources has given promise of an expansion not dreamed of at the beginning of the century. Her wheat lands produce ever larger crops. She has become the second largest gold producer in the world. Including buildings and machinery, agricultural resources were valued at \$7,978,653,000 in 1926. In 1929-30 gold production was \$39,840,722. The total will be exceeded in 1931. Copper produced in 1929 was worth \$42,411,032 and nickel \$27,115,443. In the Diamond Jubilee year, 1927, Canada produced 90 per cent. of the world's nickel, 85 per cent. of its asbestos, 55 per cent. of its cobalt, Pitchblende, a base of radium, has lately been discovered in the Great Bear Lake district in rich veins. The future of the mineral industry in Canada is so full of promise that optimistic forecasts no longer appear extravagant.

Her lumber industry and her pulp and paper industry employ many thousands. The value of the fisheries in 1929 was \$35,538,321. Canada's export trade is of great importance to a people engaged in the production of commodities and materials in excess of consumption. Henry Laureys, a leading French authority, finds the Canadians backward in the mechanisms of foreign trade, but predicts for them a growing share of it. "The whole Dominion," he says, "will benefit thereby and its prosperity increase." New York Times.

Maybe It Is

The Farmers' Advocate describes agriculture as "a combination of all sciences." Perhaps it is, when the farmer is kicked by a horse, he sees stars and becomes an astronomer. When he is kicked by the wheat market, he sees mortgages and becomes a mathematician.

People who take cold baths in the winter, says a specialist, never have rheumatism. But then they have cold baths.

"REMAINS ARE, but would you mind lending me your key? Mine will not fit." Juggled, Munich.

W. N. B. 1922

Kaiser Was Outwitted

Lost Prize Pig As Well As Purchase Price

How former Kaiser Wilhelm of Germany lost a prize British pig in a complicated series of events has been revealed. During the spring of 1914 the Kaiser wanted a prize British pig for his Potsdam piggeries. The pig was purchased at Somerset and started for Germany, but the Great War broke out and the pig was interned as a prisoner. Then for three years, with a blue ribbon around its neck and a collection box on its back, the Kaiser's prize pig collected money for the British Red Cross. One dark night a zeppelin dropped bombs in Norfolk and the poor pig was killed. Came the peace and the ex-Kaiser wanted his pig or his money back. His agent filed a claim with the enemy debts tribunal in London. The tribunal said "O.K." but the Somerset farmer who sold the pig said in a bill for maintaining the prize pig for three years.

In Abnormal Times

Price Of Hogs Twenty Dollars More During War Years

Hogs have been selling at \$120 which was a common price during the last ten years of the 18th century, or between the years 1890 and 1900. It is twenty dollars less than it was during third year of the Great War. Ten good hogs in those days would bring a farmer four hundred to five hundred dollars. Now he receives less than \$90 for the same number of hogs. Now he can buy a suit of clothes for \$25 that would have cost him \$50 during the war years. But those were abnormal times which we do not wish to see again, and those times are abnormally hard, and may never return after the economic organization of the Empire.

A Recipe For Colds

Gandhi Recommends Dose Of Salt, Soda, and Lemon Juice

Here is Mahatma Gandhi's cold preventive.

Asked how he had survived the blustering English climate in the scant Indian wearing apparel, he said: "Whenever I am troubled with a cold I take a pinch of bicarbonate of soda, and a spoonful of common salt, mixed with lemon juice and water."

This is the only medicine I ever take, and I urge everybody to try it."

Wants Treaty With Britain

The Argentine Government announces it will send to London a commission of experts to negotiate a commercial agreement with Great Britain.

Britain's cost-of-living figure is 45 per cent. above that of 1914.

CHILD'S SEPARATE GLOUSE AND TWO-PIECE SUSPENDER

Child's separate blouse and two-piece suspender shirt. The blouse is slashed from neck at center-front, bound and finished for closing at ends of attached collar. Set-in sleeves gathered into wristbands perforated for front sleeves. Blouse ingathered to a waistband. Shirt is pressed in, front and back, finished with a two-piece band. Eleven pieces.

Proportionate Measurements:
Years 2 4 6
Bust 21 23 24 inches
Sleeve to floor (with shoe) 28 32 35 inches

Had Man-Eating Crab

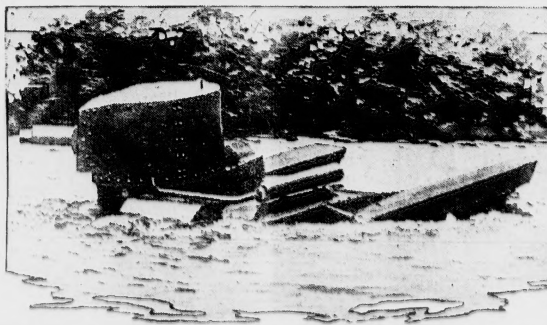

Strange Pet Of Sailors Brought From Bering Sea

When the S.S. San Gabriel, transporting lumber and canned goods from the Pacific Coast, arrived at the Albany airport, sailors displayed a giant man-eating crab which they had caught in the Bering Sea, off Alaska. The crab measured eight inches long and weighed eight pounds. They are captured in frequent numbers by Japanese, who can them.

In 1920 British Columbia produced 93,218,885 pounds of copper.

A man is incomplete until he is married, and then he is finished.

A STEEL HIPPOPOTAMUS—THAT FIGHTS

What is believed to be the most sensational development yet made in the field of armored cars is represented by this amphibious fortress, equally at home on land or in the water. This strange-looking but deadly land-or-water tank is shown plowing through the waters of the River Thames, near London, England, in one of its recent tests. The craft was photographed while it was making six miles an hour against both wind and current. Note how heavily it is armored. The gun sticking from the turret is far more deadly than any weapon a hippopotamus, which the tank resembles could employ.

"Accelerodrome" Suggested For Experiments For Greater Speed In Airplane Flights

Taxes On the Farms

Have Increased Steadily While Land Values Are Lower

A gathering of fifteen hundred farmers at Peterboro, Ontario, voiced a protest against the taxes which agriculture is compelled to pay, and passed resolutions asking the Ontario Government to extend relief by paying the entire cost of provincial and county roads and by reducing all Government salaries by 25 per cent. Taxation has grown startlingly in the last quarter of a century. Its pressure is being felt today by all classes. Farmers, especially, find that their outgo for taxes has been increasing steadily for years, while the value of farm properties has remained stationary or has decreased. There are many farm properties that are worth less today in the open market than they were twenty-five years ago. In fact, it would be regarded as a lucky opportunity today to be assured of prices for farm properties that were available twenty years ago. Nevertheless taxation has marched forward to new heights and shows no symptoms of a turn in the downward direction.

The governments could help revivify by relief measures in farm levies. There are farms that produce little more than is adequate to pay the taxes. While conditions remain thus unsatisfactory there is no basis for optimism on the part of farmers who are much harassed by the mounting costs of things they have to buy and the unexplainable slump in the prices of farm products. It is a situation that demands official sympathy and action.

The British Empire

People Should Know History Of Each Separate Part

Now that there is every prospect of the union of the practical and sentimental forces of the British Empire—the complete union of sentiment and substance—the Federal Government should issue a small volume containing an epitome of the present day history of this great Empire. This small volume should contain a short account of each separate part of the Empire, a paragraph or a page, with an indication of its products. Such a book would be useful to business men, ship owners, teachers, politicians and voters. We know the British Empire as the Jumbo of Nations, but how many men in Canada could name all its parts?

Would Favor Veterans' Sons

The Ottawa Citizen recently published the following: "Amendment to the Civil Service Act to extend to the sons of ex-service men in the Great War the preference in government appointments now enjoyed by the fathers will, it is said here, be suggested in the coming session of parliament."

In the belief that man has not yet reached anything like the speed at which he is capable of travelling, Louis Bleriot, veteran pilot and aircraft builder, suggests that high-speed experiments be conducted in what he calls an accelerodrome.

This would involve an elevated circular track around which a propeller-driven body, or fuselage, may whirl while attached by cable to the track. Centrifugal force would keep such a body aloft. As the rate of speed increased, the fuselage need not have an occupant.

Bleriot recently turned over to the Aero Club of France a magnificent cup as a trophy for the man who first reaches a speed of 1,000 kilometers, or 620 miles, in an hour. This need not necessarily be done in an aeroplane, but he believes such speed can only be approached with reasonable safety in the air.

A change in the conditions stipulates that the cup may be allocated to the man who reaches a speed of 300 kilometers, or 180 miles, an hour for half an hour, but the ultimate goal is 1,000 kilometers an hour.

Stainforth's Schneider cup record is 657 kilometers an hour, but he could not maintain this speed for half an hour, with his 2,800 horse-power motor. Bleriot believes airplanes are impractical for much greater speeds, but he holds that the possibilities of the aeroplane are unlimited.

Just as some trains are suspended from a cable, Bleriot's accelerodrome system would apply to a fuselage driven by a motor with a propeller. His idea is to have a circular track, about three kilometers in diameter, supported by a series of steel towers.

One or two cables attached to the fuselage would slip along this track as the body moved. It would rise with the displacement of air, under its own speed.

With such a device, Bleriot thinks engines could be developed under practical tests to gain the maximum of speed and the highest propeller efficiency. He points out that in the past, the difficulty of trying out machines has been the human element. Many lives have been lost, and more will be lost under the old system of designing a machine and a motor and taking them off in actual flight to see what they can do.

He claims that an accelerodrome will enable engineers better to study types of machines, motors and propellers, without any danger to human life, by spinning them around the circular track. Stresses and strains can be observed, and adjustments made accordingly.

Bleriot, who astonished the world in 1907 by flying across the English Channel, does not think there is anything chimerical in such a speed as 1,000 kilometers an hour. He says it can be realized today with the technical facilities at hand.

Slim Margin Of Comfort

Students of mathematics will be interested in the report from Boston that a king snake five feet ten inches long swallowed a bat constituting five feet six inches long. The four inches difference is believed to be the margin of comfort about which sociologists talk.

From Churchill to Liverpool via the Hudson Bay route, the distance is 2,936 miles.

"I have been shooting at you for half an hour and you only stand and smile. What are you?" "A football referee? Kasper, Stockholm."

NOTICE to - - Livestock Shippers

Owing to Generous Support accorded me from the Didsbury Shippers I have decided to operate in closer conjunction with my patrons and have OPENED A BRANCH IN DIDSBURY.

Trusting you will favor me with part of your business.

the world through
the printed word*

**Advertise the Goods
and They'll be
SOLD !!**

If you want folks to know who you are ---
where you are --- and what you've got to
sell them ---

ADVERTISE!

SIT back in silence and wait for that "living" you think the "world owes" you and you'll be a mighty long time waiting. For the public beats no path to the door of a man it doesn't know even exists.

AND how, but through the medium of the printed word, can it find out? How better, but through the intelligent use of Newspaper Space, can folks be informed of a man's wares and service

ADVERTISE, not now and then, but constantly.

Melvin Notes

Mrs. John Clarke spent a day last week with Mrs. Hillyard, in Didsbury.

Mr. and Mrs. Emil Krebs and Miss M. Kershaw motored to Calgary on Saturday, to see Mrs. Krebs' mother, Mrs. Kershaw, who is in the General Hospital. We are pleased to report that Mrs. Kershaw is doing as well as expected after her operation.

Miss Eveleth White is spending the week with Miss Dorothy Youngs at Ennervale.

Miss Marjorie White is in Calgary this week. She is Mrs. Kershaw's special nurse in the hospital.

Mr. & Mrs. A. Krebs spent a couple of days in Calgary this week. Mr. Orvin Swingle returned home with them, after spending some time in B. C.

On account of the cold weather, Melvin Go-Getters did not hold their club on Saturday night. We hope the weather will milder this week-end so we will have a good turnout at our dance on February 5th, also a good crowd at the club on Saturday night.

Mr. and Mrs. Peter Johnston are spending the week in Calgary, where Mr. Johnston is attending the school trustees convention.

Mr. Ranold Johnston visited his aunt, Mrs. Alma Good, at Gardfield, on Sunday.

A number of our young people attended the dance at Cremona on Friday night and report a good time.

Miss Marion Leeson, of Calgary, spent the week-end with her parents, Mr. and Mrs. F. Leeson.

Eddie, Ethel, Allen and Lester Krebs spent Sunday with their grandparents, Mr. and Mrs. Cowtz.

Misses Marion Johnston and Ethel Krebs spent Thursday with Mrs. John Clarke.

Inverness Notes.

Inverness Merry-makers held a concert and dance on Friday, Jan. 22nd. A large crowd turned out and everyone appeared to have a good time. Music was supplied by Inverness Merry-makers orchestra.

On Wednesday, January 27th, Inverness played volleyball with the Elkton Wildcats, victory going to the former, with a score of 8-2. A return game will be played at Elkton on Monday, February 15th.

On Friday, February 12th, a heart social and dance will be held. Each lady must bring a basket and a valentine. The valentines will be auctioned off, basket and lady going to the highest bidder. There will be a mailbox in which valentines can be posted to friends. The box will be opened and the contents distributed during the supper hour.

Burnside Notes.

Mr. George Metz is spending this week in Calgary attending the Convention of Alberta Trustees, as delegate from Burnside School district 828.

Mr. Nelson McLean is spending the latter part of the winter with his uncle and aunt Mr. and Mrs. John Topley, waiting for spring to come so he can go out in a plane again.

Miss Dorothy Clipperley, of Calgary, spent the week-end at her home here.

Mr. Freddy Metz is out of the hospital and spending a week with his aunt, Mrs. Deeds in Didsbury before returning to his home here.

Mr. Ralph Long spent the week-end with Mr. and Mrs. Nough Eckel.

We are sorry to hear that Mr. Hector Duncan is confined to the hospital with an attack of his old trouble.

Long Pine W.I. will meet on Thursday February 11, at the home of Mrs. Charles Mardon.

FOR TRADE—Will trade light buggy for boiler valves. Apply: PIONEER OFFICE.

HOCKEY

DIDSBURY vs. AIRDRIE.

Airdrie again lost to the Didsbury hockey team when the locals won a 5-1 decision Tuesday night after a ding-dong third period that had the fans on edge throughout. The locals banged in two counters right off the reel when Cook scored alone and later fed Berscht a pass for number two. Airdrie came right back before the period ended and scored two to even matters at the end of the first period.

The second period went scoreless and it was not until ten minutes of the final session that scoring commenced again. Airdrie took the lead when Borbridge scored. Bob Gooder pulled a pretty ploy to beat McDowell and even the count. Woodcock scored on Gooder's pass and the home team led by one. George Geiger was banished for a minute. With one minute to go, N. Fletcher bent Russell with a long shot and it appeared as though overtime would be played, but in the dying seconds of the game, Mel Huget and Cook came down together and Mel passed to Charlie who cleanly beat McDowell for the winning tally.

It was one of the best games played here this winter, Airdrie playing much better hockey than in former games and will continue to make things interesting for the balance of the season.

Springside Notes.

These days the district is mighty cold. We wonder what the cause is.

Mrs. Orle was seen paying a visit to Mrs. McNaughton the other afternoon.

Considering the spirit of some and the claims of others that they cannot do anything without it being known by everybody, we do not see our way clear of saying much more.

Last Friday night a good crowd attended the first get-together of the club. Considering the short notice given the organizers, a good program was furnished, so much so that a couple of numbers had to be omitted.

Westcott Notes.

The regular monthly meeting of Westcott W.I. was held on January 28th at the home of Mrs. E. E. Owens, about twenty ladies being present, three of whom joined the ranks, viz.: Mrs. S. Shoudice, Mrs. F. Dexter and Miss Ivy Mitchell. A woolen comforter was tied and is to be sent as a gift to Mrs. M. Jacobsen, a former member who now resides at Rosalind, Alberta. The business session followed, and a vocal selection was rendered by Mesdames Owens, Klink and Levagood. Materials which had previously been purchased with Institute funds were then distributed to be made into garments for the bazaar next fall. After the singing of "God Save the King," lunch was served by the hostess.

Correspondence.

Dear Sir,
Will you kindly find space for me in your paper, to finish what I started out to say at the annual school meeting last Friday evening, on asking the trustees why the High School teachers were dismissed, and getting a reply that all three had got dismissed for the same reason, "lack of co-operation."

I started to complain when four or five persons started to talk at once. My contentions are that the teachers could not co-operate because the trustees did not co-operate themselves, therefore the trustees should have shared their part of the responsibility, also the dismissal was severe and barred the teachers from getting another school. Would the Didsbury trustees engage a teacher who had been dismissed for lack of co-operation?

My views are that a more accurate reason for dismissal would have been as follows: "Owing to the trustees failing to co-operate on the re-appointment of the High School teachers, and acting on the advice of the High School inspector, we have decided to discharge the entire staff. Please accept this as your notice to take effect on 30th June next."

Had a dismissal of this kind been sent, the teachers would have had a chance of getting another school, and the trustees would have done their duty in taking the responsibility.

Yours truly,
R. A. GULLIVER.
